I am 59 years young ex-banker. I met with a serious jeep accident 9 years back while on bank's duty, which kept me bed-ridden for 6 months, resulting into tremendous weight gain. I was subjected to frequent transfers and was fed up of my job. My wife saw a small advertisement which I responded and was attracted to the products. In the first 6 months I lost 23 inches and 30kgs of my body weight. To my surprise my 22 year old High B.P. came under control and my hair loss was also totally arrested.

Business automatically started. My sponsor Sandeep said if you are serious about this opportunity you can't afford to miss trainings. My first month income was Rs.6000/- and in 6 months went upto Rs.25000/- per month.

I quit my remaining 10 years service in bank and took Herbalife as my career. To put it in my sponsor's words, "Life is a fairy tale now". My last 3 months income is Rs.8 Lakhs. I attended 2 international trainings and a fully paid vacation by Herbalife.

I am more excited for the next 5 years because of the possibility of touching many more lives around the world and thus getting lots of blessings.

I sincerely thank Mark Hughes, Jim Rohn, my Sponsor Sandeep and my upline Sponsors Hemang and Rakhi, my organization and fellow distributors for carving a better person out of me.
