

New Cell Activator!

The next generation of Cellular Nutrition

Now with nine times the Pycnogenol® and a blend of essential nutrients, new Cell Activator is even more effective in aiding the absorption of vitamins and minerals in your body.

- Research has shown that Pycnogenol®, a powerful antioxidant, can be useful in preventing obesity and maintaining optimal health.
- Pycnogenol® supports the transport of carbohydrates from the blood stream into body cells, where they can be broken down for energy generation.

Helpful at preventing obesity and maintaining optimal health, Cell Activator has been reformulated to enhance cellular nutrition better than ever before. With an incredible blend of essential nutrients and botanicals, new Cell Activator features the following benefits:

- Supports cellular energy production and stamina.
- Enhances overall vitality and well-being.
- Improves the absorption and assimilation of essential nutrients.
- Optimizes cellular energy production.
