

Opens Two New Casa Herbalife Programs

The Herbalife Family Foundation has established two new Casa Herbalife Programs; SOS Children's Village in Bangalore, India (# 44) and a program at the Dom Tuskanac charity (Children and Youth Home) in Zagreb, Croatia (# 45) continuing the mission to help provide good nutrition to children in need around the world!

Approximately 400 children are cared for at the Bangalore, India location, which is one of more than 40 locations throughout India where orphaned and abandoned children can grow in a family environment.

The Children and Youth Home in Zagreb, Croatia provides accommodation for children who suffer from moderate mental or learning disabilities which prevent them from staying with their families. The center has been caring for children for 64 years and currently accommodates 66 young people. One of the major tasks of the Home is to prepare the young people for independent life and work after they have completed their education and integration into the community.
