

## Herbalife Offices Earn LEED Certification

Herbalife proudly announces that it earned Leadership in Energy and Environmental Design (LEED®) certification for the environmentally-friendly design of our offices at L.A. Live in downtown Los Angeles. The LEED® rating system was designed by the U.S. Green Building Council to measure the sustainability of buildings.

Designed by HOK, the space was created to minimize our company's footprint through careful use of materials and design. The effort was part of our

company's commitment to the 3Rs – Reduce, Reuse, Recycle. Our company's downtown location is a destination showplace for our independent distributors who visit from around the world. The space is stylish, yet was created using recycled and rapidly-renewable materials.

Our company earned credits for its efforts in specific areas, namely Sustainable Sites, Water Efficiency, Energy and Atmosphere, Materials and Resources and Indoor Environmental Quality.

Herbalife works on an ongoing basis to encourage its employees and independent distributors to 'Live Green' through a variety of programs and education.
