Frequently Asked Questions:

1. How do I avail of HSBC's Installment Plan?

For Walk-In transactions, please give immediate instructions to the Distributor Services Rep to process your order and credit card transaction using the 0% installment facility.

For Fax-In transactions, please indicate on the upper left corner in large bold print: 0% INSTALLMENT.

2. What happens in case my installment transaction amount cannot be divided equally by 3?

The system shall make the necessary adjustment on the last monthly installment amount to be posted to your Statement of Account. For example, a transaction amount of Php10,000 shall be posted to your SOA as follows:

- 1st of 3 installments = Php3,333.33
- 2nd of 3 installments = Php3,333.33
- 3rd of 3 installments = Php3,333.34 *missing Php0.01 is added to your last installment transaction posting

3. How much of the installment amount will be applied to my available credit limit?

You do not have a separate credit limit for installment thus the whole installment amount will be deducted to your available credit limit. Your available credit limit will be replenished as you pay your total outstanding balances each month equivalent to the amount you paid.
