

Vacation Qualifier Profile

Celebrating some of our early Herbalife 30th Anniversary Vacation Promotion Qualifiers

A number of Distributors have already qualified for the 30th Anniversary Vacation Promotion. Here's how they did it! This could be you!

Visit MyHerbalife.com, to get more information and find out how you too can qualify!

Arlene T. Balangue, Philippines

I am a Certified Public Accountant and finished my Master in Business Management at Asian Institute of Management in 1983. I met Herbalife in 1995 through a work-from-home flyer. At that time, I was an accounting professor at De la Salle University.

I had no plans to do the business at all because I couldn't see myself "selling" and more so to be involved with the networking marketing industry since I had such a negative perception of networking or multi-level marketing.

I only went to the "party" (which was actually an opportunity meeting) out of curiosity. I couldn't relate to the income story and lifestyle they were talking about since I was already enjoying that kind of lifestyle. However, the product testimonies amazed me so I decided to use the products and signed up only to have the discount benefit.

From signing up to get the discount to qualifying as President's Team Member, my journey in Herbalife has not been all a bed of roses. While building the business and with two Herbalife babies along the way, Herbalife trainings helped me become really strong and mature. It took me three years before I found one supervisor who wanted to attend trainings and bring guests.

I focused on going to **all trainings** and **events** and **bringing new people each time**. There was a time when I just gave birth but I still went anyway. I also stretched to qualify for promotions. Without realizing it, Herbalife has allowed me to **grow as a better person**. And my **why** in Herbalife has become **bigger**. And this is **to help more Filipinos make more money in the Philippines so they do not have to work abroad anymore**. So, my **why** changed as I grew in the company.

The focus of building the business with an organization, of making sure there is daily consumption, love of customers and distributors, has allowed me to build a solid, growing and stable business.

So from someone whose first check was just Php13,000.00, my last 3 months' income amounted to Php5,000,000.00! This income allows me to give back to the community. I currently support an orphanage "Nayon ng Kabataan", Quezon City Performing Arts Foundation, scholars, and from time to time, I sponsor events to take the Herbalife brand out there. When you make more, you can give more. Always remember what our founder said, "Your success is only limited to your own imagination and your own hard work".

So, really enjoy your journey in Herbalife. And here is my formula for you: **Good Thoughts + Good Deeds = Good Results**.

Herbalife salutes Arlene Balangue for this outstanding achievement of being among one of the first to qualify!

Making the World Healthier.
