Jocelyn & Billy Tan, Philippines

“Dreams do come true with Herbalife. When I was young, I used to watch these beautiful places in the movies and TV shows like Hawaii and USA. I used to tell myself, would I be able to visit these places in the future? I’ve heard about cruises, that it cost a fortune; I told myself to better use the money for essentials.”

“But in just six months of doing the business, we got a free Leadership Weekend Training in Hong Kong on December 1998, after six months, we were able to go to Hawaii, then six months later to Los Angeles, California. We kept telling ourselves, is this really true?”

“After a year of doing the business part time, my husband Billy decided to do Herbalife full time. And for the past 11 years we’ve been travelling to different parts of Asia and USA. And the as for the cruise, Herbalife gave us a free Asian Cruise and it was more than what we’ve expected! We were able to help people with their health and achieve financial stability. Just by putting more people on the products we get to achieve what we want. And now we’re on our way to Laguna, Bali Indonesia for another all expense paid vacation! This is on top of the Atlantis, Bahamas vacation next year!!!”
