#### Special Speaker

Being a promoter for a local message chair company for 20 yrs was something that I know I would not want for the rest of my life. I managed to know Herbalife by an invitation to HOM. I saw the opportunity and started my career with Herbalife since then. The company's step-by-step training system, has bought me what I am today. My current income is 6 to 7 times of my 20 yrs of working income. At the same time, I get to travel a lot and know many friends. I love this company and my current lifestyle. I felt honored to be part of our founder, Mark Hughes's dream and vision to bring Herbalife around the world.
