Opportunity sometimes comes disguised as bad luck. Over 12 years ago, Kendal (marketing and sales background) had a business that he miscalculated with that left him in debt. His Wife, Debra, responded to an advert that said "Earn \$ and Lose weight"! Debra went around for a7 free sample and came back with a Herbalife business registration and some products for both of them to use. Both of them started using the products and plugged themselves into the Herbalife Success Training System! Starting part time, the Herbalife business has taken them around the world and really shown them how to dream again"

After working for 6 years, I started an advertising & design business with my friend. However, the SARS epidemic in 2003 created problems for us and I decided to end my business and work full-time with Herbalife after obtaining great product results and seeing the immense opportunity that Herbalife could offer. I firmly believe that Herbalife products and the unique Marketing Plan will enable an ordinary person to attain a better health, lifestyle & great income!
