**Venue: DBS Tower Auditorium
6 Shenton Way, Level 3**

21 March 2009 Saturday

We worked hard to qualify for Millionaire Team within 5 months in the business. How we were able to achieve it in such a short period of time was working together on our circle of influence. This is the key that brought us here so quickly. But that's just the beginning. We continue to work even harder by recruiting more front lines in order to find the right people. As a result, we found our 2nd serious guy who is our church pastor. And again, because he also works with his centre of influence, he qualified as a Millionaire Team member within 6 months. Take this business seriously without having any doubt on the company or the products. It took us exactly 36 months to achieve the President's Team. With Herbalife's commitment to support Distributors, *together with the right attitude, anything is possible!*

FRANCIS EDWIN TAYE
President's TEAM Member

I'd suffered from acne skin problem since 15 years old. Tried everything but nothing work. After using Herbalife products, I've lost 7kg in 2 months and totally improved my acne skin problem. Because of the great product results and after went to the 1st FTT, I decided to become a Full Time Herbalife Distributor. Just by following the system and went to every events, now I am earning 5 figure incomes. My life has been changed ever since. Thank you Herbalife!!!

I was obese from young and suffered from hypertension and hormone imbalance problem in my twenties. I had been taking medication for more than 10 years. Through Herbalife's good nutrition, I improved on my conditions in 3 months and my doctors have taken me off my medication since last quarter of 2007. In addition, I have lost 24 kg. By sharing with people, I made a highest part-time income of \$1,500.00. I decided to quit my job as a Childcare Principal, and do this business full time last November 2008. Thank You Herbalife!!!

I was used to be an engineer in the aerospace industry before Herbalife. Although the pay and prospect is good, I disliked the 8-5 lifestyle and have always been searching for an opportunity. My good friend introduced me to these fabulous products, and not only did I lost 7kgs in total, I regained my health and fitness too! I feel more energetic during my sports games, and my IPPT improved by nearly 2 minutes in a year! & with these amazing results, I took the bold step to quit my job last October and focused in this business! Work harder on yourself than on your job. If you have a dream, work hard and never give up in your dreams!
