Mega HOM

Get ready for the most incredible HOM in May, featuring one of the most formidable guest speakers, Chairman Club's Member John Tartol

Life hasn't always been so dramatically successful for the Tartols, but their road to prosperity did begin with Herbalife. In 1981, after working eight different jobs in 10 months, Lori was ready for a serious career-one in which she could invest her time and energy. She first learned of Herbalife by attending a meeting conducted by Doug Stuntz, President's Team. "Everything sounded too good to be true," recalls Lori. "Here was a dynamic product line, a fantastic marketing plan and no boss."

"At the time, John, her fiancé, was a musician who was bartending to make ends meet financially. Fed up with the musician's lifestyle and the meager income it offered, John joined Lori and together they eagerly pursued the Herbalife opportunity. Learning from Herbalife's most committed Distributors, they worked with tremendous diligence and persistence. "We're extremely pleased with the rapidly developing leadership within our organization," John adds. "It's great to see so many of our 'old timers' becoming major successes!"
