If you don't requalify...

- You fall back to 30% discount in February 2009
- Your status becomes Senior Consultant
- You will lose any downline Supervisor lineages to your upline Supervisor

Example of a Supervisor's organization today:

Example of organization if a Supervisor (Dave) does not requalify:

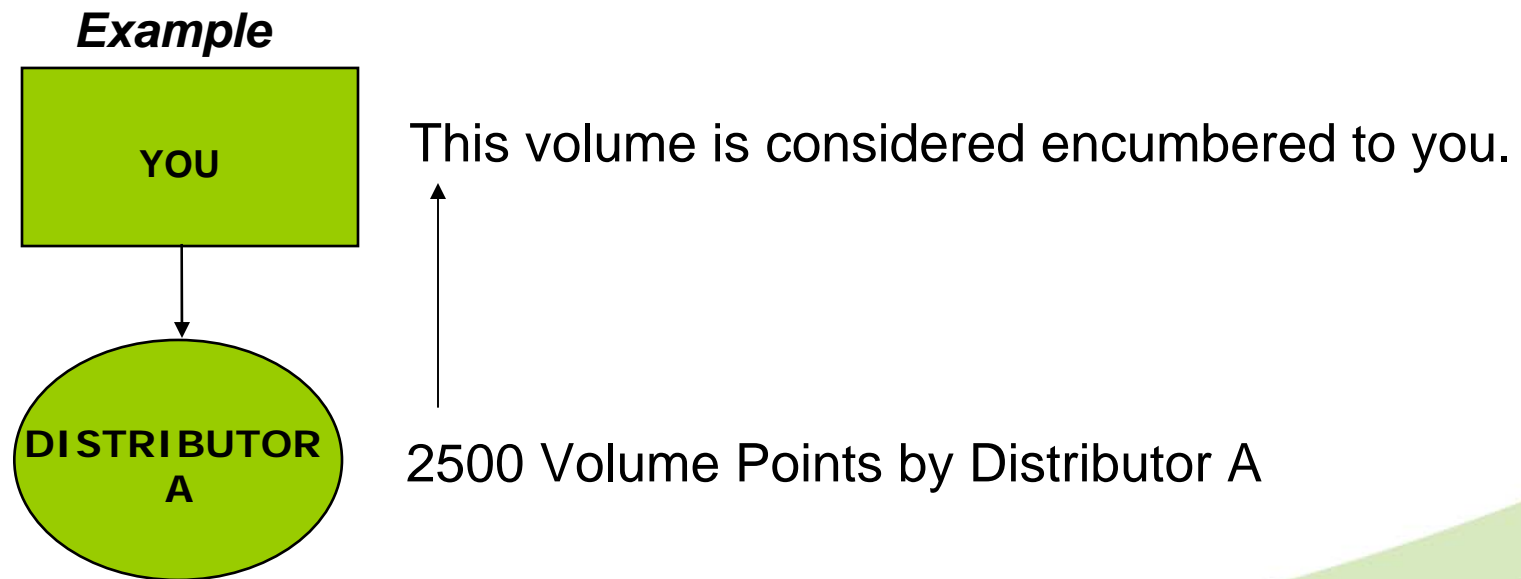

Three ways to requalify between February 1, 2008 and January 31, 2009:

- 1. Achieve 4,000 Volume Points in one month, with 1,000 Volume Points unencumbered.**
- 2. Achieve 2,500 Volume Points in two consecutive months, with 1,000 Volume Points unencumbered each month.**
- 3. Accumulate 4,000 unencumbered Volume Points at any time during the requalification period.**

Note: Using method #3, your downline Supervisor lineages will be moved to the next upline Supervisor – but you will retain your non-Supervisor downline and your 50% buying privileges.

Earning Unencumbered Volume

Unencumbered Volume is volume not being used to qualify another Distributor in your downline to Supervisor level.

It's not too early to requalify!

**Requalification ends on
January 31, 2009!**
